the  
earth can turn to  
**gold!**

*Our Indian heritage, ever so rich and diverse, lets us amalgamate all the 5 natural elements of "PRITHVI," "AKASIL," "AGNI," "VAYU," "JAL," and ancient architecture "Vaastu Vidya, Shapatya Veda" with modern German technology of environmental eco-habitation to give us the concept of "Indie-homes".*

*This unison yields the life-giving "gold" that grows from within, from mother-earth herself! A magnetism that attracts great fortune, enlightenment, fulfilment, and affluence.*

.....

*In today's world of conscious and environmentally mindful approaches, people need personalised residences at affordable prices built up in an atmosphere of cutting-edge technology, landscaping, architecture, and natural surroundings.*

*To cater to the needs of the new India, BST Group emerged with a groundbreaking 'INDIE HOME' concept. The concept, far away from the preconceived norms, is creating ripples in the real estate market, and is captivating young Indian home buyers and investors.*

*The Indie-Home concept adapts ancient strategies, as old and rich in culture as the civilisation, for creating structures and styles that provide ample airflow, a calming environment and abundant sunlight. The ancient architectural boon combines with the most advanced world-class housing technology and equipment providing a balance of modernity and rooted traditional values. BST has joined forces with reputable Indian Vedic architects and German environmental habitation specialists to offer affordable modern housing in accessible locations to young and aspirational families.*
